

Display and Safety Regulations

Not Allowed At Project

1. Living organisms including plants, animals, microbes
2. Taxidermy specimens or parts
3. Preserved vertebrate or invertebrate animals
4. Human or animal food
5. Human/animal parts or body fluids (for example, blood, urine)
6. Plant materials (living, dead, or preserved) which are in their raw unprocessed, or non-manufactured state.
7. Laboratory/household chemicals including water (Exceptions: water integral to an enclosed apparatus; crystals grown by you, displayed in a sealed case, and removed after final judging)
8. All hazardous substances or devices (For example, poisons, drugs, controlled substances, firearms, weapons, ammunition, reloading devices, Class 3 and 4 lasers)
9. Dry ice or other sublimating solids
10. Sharp items (for example, syringes, needles, pipettes, knives)
11. Flames or highly flammable materials
12. Batteries with open-top cells
13. Awards, medals, business cards, flags, endorsements and/or acknowledgments (graphic or written) unless the item(s) are an integral part of the project
14. Photographs or other visual presentations depicting vertebrate animals in surgical techniques, dissections, necropsies, or other lab procedures
15. Active Internet or e-mail connections as part of displaying or operating the project at the CSEF.
16. Prior years' written material or visual depictions on the vertical display board.
17. Overlapping panels or pages on the backboard are not permitted. Supporting detailed information should be contained in a data book or as part of the research report.
18. Glass or glass objects unless deemed by the Display and Safety Committee to be an integral and necessary part of the project (Exception: glass that is an integral part of a commercial product such as a computer screen)
19. Any apparatus deemed unsafe by the Display & Safety Committee (for example, large vacuum tubes or dangerous ray-generating devices, empty tanks that previously contained combustible liquids or gases, pressurized tanks, etc.)

Only Table Top Displays are allowed. Maximum Size of Display

30 in. (76 cm) deep

48 in. (122 cm) wide

78 in. (198 cm) high from table

For Questions Regarding Display Rules

e-mail: display@ctsciencefair.org

Allowed at Project BUT with the Restrictions Indicated

1. Photographs and/or visual depictions if:
 - a. They are not deemed offensive or inappropriate by the Display and Safety Committee.
 - b. They have credit lines of origin ("Photograph taken by..." or Image taken from..."). If all photographs being displayed were taken by the participant or are from the same source, one credit line prominently and vertically displayed is sufficient.
 - c. They are from the Internet, magazines, newspapers, journals, etc., and credit lines are attached. (If all photographs/images are from the same source, one credit prominently and placed on the backboard is sufficient.)
 - d. They are photographs or visual depictions of the participant.
 - e. They are photographs of human subjects for which signed consent forms are at the project or in the booth.
2. Soil, sand, rock and/or waste samples only if permanently encased in a slab of plastic or a sealed container.
3. Any apparatus with unshielded belts, pulleys, chains, or moving parts with tension or pinch points may not be operated.
4. Class 2M lasers:
 - a) May be operated only by the fair participant.
 - b) May be operated only during finalist judging.
 - c) Must be labeled with a sign reading "**Laser Radiation: Do Not Stare Into Beam**"
 - d) Must have protective housing that prevents physical and visual access to beam.
 - e) Must be disconnected when not operating.
5. Class 3 and 4 lasers may not be operated.
6. Any apparatus producing temperatures that will cause physical burns must be adequately insulated and only operated during finalist judging..

Electrical Regulations

1. Bare wire and exposed knife switches may be used only in circuits of 12 volts or less.
2. All electrical connectors, wiring, switches, extension cords, fuses, etc. in high voltage circuits (over 12 volts) must be UL-listed and must be appropriate for the load and equipment. Connections must be soldered or made with UL-listed connectors. Wiring, switches, and metal parts must have adequate insulation and overcurrent safety devices (such as fuses) and must be inaccessible to anyone but the fair participant. Exposed electrical equipment or metal that is liable to be energized must be grounded or shielded with a grounded metal box or cage to prevent accidental contact. There must be an accessible, clearly visible on/off switch or other means of disconnect from the power source. Maximum is 500 watts, 120 volts A.C.
3. Finalists requiring 120 volt A.C. electrical power must provide a UL-listed 3-wire extension cord which is appropriate for the load and equipment.

Firearms Projects Not Allowed!

Projects involving firearms, including BB and pellet guns, are not allowed at the Connecticut Science and Engineering Fair.
